

Carers Demonstrator Site

Breaks for Carers

Carers

- The aim of this project is to make support services and Breaks for Carers more accessible to all carers.

- Especially carers who have to pay for their services themselves.

- This will be done by having a web site where Carers can 'Book and Go' a range of breaks and services using individual budgets or their own resources.

- This gives carers real choice and control in the way they use services.

- This means that a whole range of carers are able to access information quickly on their own or with the help from professionals across health and social care.

- On the web site they will be able to see a full range of services available and access support at times that are more suitable to their own individual lifestyles.
